Companies operating oil and gas field properties were permitted to make only one report for oil and gas field operations in each State.

Companies engaged only in performing

oil and gas fields or other mining services were permitted to make only one report for all States; these reports were classified on the

basis of the principal State in which the

service was performed. Such reports contained employment on March 15 and other selected data by the State and County. For such

operations, the State total figures shown for

number of establishments represents the number of reports received which were classified in the State and those shown for number of

establishments in a County represent the

number of reports that indicate any operations in the specified county. All county statistics shown which were not reported separately

were obtained by allocating the totals for

each company on the basis of the reported county data.

See table 2A footnotes 1 and 4.

Excludes data for establishments included in manufactures.
